Corbett Industrial Cleaning Services, Inc.

IN ASSOCIATION WITH THE HUDSON – MOHAWK
PROFESSIONAL GEOLOGISTS ASSOCIATION PROUDLY PRESENT

(Inconvenient Aspects of) Modeling Climate Change

Presented by:
Dr. Chris Walcek

Wednesday, March 16th - Reservations Required by March 9th

RSVP by registering on-line at <http://awmaneny.org/> (preferred) or by emailing awmaneny@gmail.com
Presentation is approved for 1 PDH Credit.

Location:	Century House	Time:	Social Hour	5:00pm
	997 New Loudon Road		Dinner	6:00pm
	Latham, NY 12110		Program	7:00pm

(Inconvenient Aspects of) Modeling Climate Change

Abstract: This talk summarizes the scientific basis of climate change science, and highlights the often overlooked areas of uncertainty in this highly politicized discipline. Local meteorology and paleo-climate records will be presented, and put into the context of the changing global climate. Physics-based perspectives of climate scientists on either side of the “consensus” view will be summarized critically.

About the Presenter: Chris graduated UCLA with PhD in Cloud Physics & Atmospheric Sciences from UCLA. He worked at the NSF-supported National Center for Atmospheric Research (NCAR) studying Acid Rain in Boulder Colorado before joining the Research Faculty at the SUNY-Albany Atmospheric Sciences Research Center (ASRC) in 1986. For over 30 years, he taught graduate courses and studied air pollution meteorology and cloud physics, with research supported by US EPA, NASA, and National Science Foundation funding. He retired in 2020, but continues with an emeritus appointment at ASRC.

Costs:

- \$10.00 for student members
- \$30.00 for members
- \$35.00 for non-members
- In-person program only: Free
- **PDH certificate available for:**
 - \$5.00 (member w/ dinner)
 - \$10.00 (member for program only)
 - \$20.00 (non-member)
